

# Friendly App

April 12, 2017

Here is what we've been working on lately.  
We hope you'll love it as much as we do!

## The World's Best Camera 📷

iPhone is the most popular camera in the world. Now we've reengineered that beloved camera, adding optical image stabilization, an *f*/1.8 aperture, and a six-element lens to make it even better for shooting photos and videos in low light. And with advanced new features like wide color capture, your photos and Live Photos will look even more vibrant.

## The World's Best Mobile OS 📱

iPod touch comes with iOS 10 and a collection of powerful built-in apps. Send unlimited texts with iMessage over Wi-Fi. See your friend's every expression with a FaceTime video call. Post a photo directly to Facebook or Twitter. Or browse your favorite sites with Safari.

## Hundreds of Songs 🎵

Never leave a favorite tune behind. Along with up to 15 hours of battery life, iPod shuffle holds hundreds of songs. That's plenty of room for the essential songs of your workout or commute. And for multiple playlists, Genius Mixes, podcasts, and audiobooks, too.
